

GECCO 2005: Genetic and Evolutionary Computation Conference

A recombination of:
**10th Annual Genetic Programming Conference (GP-2005) and
14th International Conference on Genetic Algorithms (ICGA-2005)**

**June 25-29, 2005
(Saturday-Wednesday)
Washington, DC, USA**

www.isgec.org/GECCO-2005

HOW TO SUBMIT A PAPER TO THE GECCO CONFERENCE

The **deadline** for ARRIVAL of submissions is **MONDAY, JANUARY 17, 2005**. See

www.isgec.org/GECCO-2005

for details on paper and electronic submissions, including procedures and formatting details. The conference proceedings will be published in book form and on CD-ROM and distributed at the conference.

The GECCO review process is "double blind," meaning that reviewers should not be able to infer the identities of the authors of the papers that they are reviewing (and, of course, that authors will not know the identities of their reviewers).

Each paper **MUST** identify a category under which it will be reviewed. Possible categories include:

- Genetic Algorithms
- Genetic Programming
- Evolution Strategies and Evolutionary Programming
- Learning Classifier Systems and other Genetics-Based Machine Learning
- Evolvable Hardware
- Real-World Applications
- Biological Applications
- Evolutionary Robotics, Artificial Life, Adaptive Behavior
- Ant Colony Optimization and Swarm Intelligence
- Evolutionary Combinatorial Optimization
- Evolutionary Multiobjective Optimization
- Coevolution
- Artificial Immune Systems
- other categories as may be subsequently added on the web site: www.isgec.org/GECCO-2005

To help match referees to papers authors are **additionally required to provide keywords describing the content of their paper.**

Review criteria will include significance of the work, novelty, clarity, writing quality, and sufficiency of information to permit replication (if applicable). The first-named author (or other corresponding author designated by the authors when submitting) will be notified of acceptance or rejection (in early March 2005).

By submitting a paper, the author(s) agree that, if their paper is accepted, they will submit a final revised camera-ready version by the deadline for camera-ready papers (in late March, 2005), they will register at least one author by the deadline for camera-ready papers, and at least one author will attend and present the accepted paper at the conference.

The material in papers must represent substantially new work that has not been previously published by conferences, journals, or edited books in the evolutionary computation field. GECCO permits a paper to be submitted that is substantially similar to a paper being submitted contemporaneously for review in another conference; however, if the submitted paper is accepted by the GECCO conference, the authors agree that substantially the same material will not be published by another conference in the evolutionary computation field. (Material may be later revised and submitted to a journal if permitted by the journal involved.)

ISGEC EXECUTIVE BOARD (As of June 1, 2004)

Erik D. Goodman (chair)

**David Andre
Wolfgang Banzhaf
Kalyanmoy Deb
Kenneth De Jong
Marco Dorigo
David E. Goldberg
John H. Holland**

**John R. Koza
Una-May O'Reilly
Ingo Rechenberg
Marc Schoenauer
Lee Spector
Darrell Whitley
Annie S. Wu**
